REGISTRAR'S REPORT

The College of Physicians and Surgeons of Ontario is the only body enjoying the right to issue licenses to engage in the practice of medicine in the Province of Ontario. All Members of the College hold the license of the same. The Ontario Medical Register contains an alphabetical list of all Members of the College to date. (Dec. 31st, 1922).

In the Register appear also a copy of "The Ontario Medical Act", the names of those comprising the Council of the College, a list of past and present Officers of the same, an alphabetical list of Counties and Towns of the eighteen Territorial Divisions, and Remarks on the Penal Clauses of "The Ontario Medical Act", etcetera, for the guidance of Members of the College.

The following tabulated statement is made up from records appearing in the College Register.

From the inception of the College in 1866 to December 31st, 1922, seven thousand, nine hundred and nine names have been entered in the Register. Death or erasure accounts for disappearance from the same of two thousand, five hundred and eighty-nine names, leaving five thousand, three hundred and twenty names in the Register, as of December 31st, 1922.

Of the five thousand, three hundred and twenty Members of the College, living and in good standing, whose names are in the Register, (Dec. 31st, 1922), three thousand, seven hundred and twenty-five are actively engaged in practice in Ontario, while one hundred and one other Members are living in the Province, but are not actively engaged in practice therein. The remaining fourteen hundred and ninety-four members are not living in Ontario; of this number, in turn, some thirty-seven live out of the Province, but close enough to its borders to engage in practice in it to a limited extent.

In the years elapsing since the publication of the last Register, much has transpired of interest to Members of the College.

Negotiations for interchange of licentiate standing between the Medical Councils of the United Kingdom and Ontario, far advanced before beginning of the War, were fully completed shortly following its outbreak. This made it possible for Ontario graduates in number to meet demands of the British War Department, and to ally themselves with different units of the Imperial Forces.

With institution of the Medical Council of Canada, provision was made for issuing of a license, acceptable for purposes of registration in any province of Canada.

Advantage has been taken of possibility of transfer of registry in one or other of these two ways, in the case of some two hundred and sixty-five practitioners, who have in this way become Ontario licentiates.

Government Boards have been established, dealing with control of the sale of alcoholic liquors, on the one hand, and compensation for injuries sustained by workmen in industrial occupations, on the other. These Boards are known respectively as the Board of License Commissioners for Ontario, and the Workmen's Compensation Board.

Members of the College are brought into direct relationship with these two bodies.

Under the law, legally qualified practitioners in active practice in Ontario are the only ones who are empowered to issue prescriptions for liquor in any form, and such prescriptions are subject to certain specified limitations.

Sliding scale compensation is provided for medical men, whose services are employed in accident cases, in which the Board admits responsibility, and where workmen's claims are honoured by it.

H. WILBERFORCE AIKINS,

Registrar.

Dec. 31st, 1922.

ADDENDUM.

The Legislature of the Province of Ontario at its recent session amended the Ontario Medical Act. There was introduced therein a definition of the term "the practice of medicine." This definition appears in the Act in section 47a, and it is confidently hoped, that such interpretation will be given to it in the Courts, as will guarantee to the public assured protection against specious claims and misleading representations, made by parties essaying to engage in the practice of medicine, without themselves possessing either adequate training or scientific knowledge.

June 1st, 1923.

The Ontario Medical Act

as incorporated in the

Revised Statutes of Ontario, 1914

(The last amendment to the Ontario Medical Act, the provisions of which are incorporated herein, was passed by the Legislature at its 1923 Session, to become effective as of July 1st, 1923.)

Remarks on the penal clauses of the Ontario Medical Act for the guidance of members of the College.

REMARKS ON PENAL CLAUSES
of
THE ONTARIO MEDICAL ACT.

The following observations are intended for the guidance of the members of the College of Physicians and Surgeons of Ontario, in carrying into effect the penal clauses of The Ontario Medical Act. All communications with the Registrar of the Council will of course be considered strictly confidential.

It will be convenient to consider separately, those clauses of the Act which provide that the Council may order the erasure from the register, of the name of any Registered Practitioner, and those which impose a penalty of fine or imprisonment in respect of any offence.

ERASURE FROM REGISTER.

The following remarks do not apply to erasure by the Registrar for non-payment of fees, (in which case the practitioner will be reinstated on payment of arrears), but only to erasure by direction of the Council, in which case the name erased can only be restored under the provisions of section 32.

The procedure for enforcing this penalty is provided by sections 31, 33, 34, 35.

The Council must before exercising the power of erasing the name of any person from the register, ascertain the facts of the case by a committee, and if the charge is made against any Registered Practitioner, that he has been convicted of any indictable offence, or has been guilty of any infamous or disgraceful conduct in a professional respect, the Council *must* direct such inquiry upon the application of any four Registered Practitioners. The name of any Registered Practitioner may be erased by the Council:—

THE ONTARIO MEDICAL ACT

FIRSTLY

If he has been guilty of any indictable offence. (Sec. 31.)

In this case the Registrar should be furnished with the christian name and surname of the party, the offence for which he was convicted, the place and assize at which he was tried, together with his last known address.

SECONDLY

If he has been guilty of any infamous or disgraceful conduct in a professional respect. (Sec. 31.)

In this case full particulars of the matters complained of together with a full statement of the evidence by which the charge is to be established, should be communicated to the Registrar.

In case any member becomes aware that any person who has been convicted of an indictable offence, or has been guilty of any infamous or disgraceful conduct in a professional respect, intends to apply for registration, he should communicate to the Registrar the facts above mentioned in order that they may be kept on record in case of any such application.

THIRDLY

If he has procured or caused to be procured his registration under the Act, by any false or fraudulent representations. (Sec. 46.)

In order that any person may be entitled to be registered under the Act, he must be qualified within the provisions of sections 21, 22 and 23, and Schedule B therein referred to, and the Rules, Orders and Regulations of the Council passed under the authority of the Act.

In laying a charge under Section 46 of procuring registration by false or fraudulent representations or declarations the facts upon which such charge is based, and the evidence by which it is to be established should be fully communicated to the Registrar.

THE ONTARIO MEDICAL ACT

The false or fraudulent representation must be such, that unless the same were true, the person applying would not be entitled to be registered under the sections and regulations above referred to.

Proof of the alteration, falsification, or forgery of a certificate or other document entitling the person to registration would be sufficient proof of a charge made under this section.

Any material alteration of a certificate amounts to forgery thereof.

“A Material Alteration” is of the date, name of the person or other fact which would involve the validity of the instrument for the purposes for which it is produced.

FINE OR IMPRISONMENT

In order to enforce the clauses of the Act which impose a penalty of fine or imprisonment it is necessary to lay an information before some Magistrate.

Every Justice of the Peace has jurisdiction to dispose of every offence under the Act:

Every Justice of the Peace will furnish the necessary form of information with blank spaces for the names, places and dates and description of the offence charged, which should be set forth in the very words of the section under which the charge is laid.

The information having been sworn by the party laying the charge, the Magistrate will issue his summons, and if the party does not appear, or in the first instance if he thinks fit, he may issue a warrant for the arrest of the party and upon the return of the summons or upon the arrest, the case will be proceeded with in the ordinary way.

It must be remembered that by section 56, every prosecution must be commenced within one year from the date of the alleged offence.

When the conviction is obtained it is important to see that the formal conviction is in the very words of the section in question, and that the penalty imposed is strictly within the

THE ONTARIO MEDICAL ACT

prescribed limits. It is most important that no penalty should be imposed except what is strictly within the terms of the Act, as any variance in this respect would only result in the complete failure of the prosecution, as *e.g.*, the Justice may award payment of costs in addition to the penalty, and in default of payment may commit the offender to jail for any term not exceeding one month, yet he must not include in the costs, the costs of commitment and conveying to jail, and if he does so the conviction is void and may be quashed on appeal.

SECTION 46. SUBSECTION 3.

We have already seen that the name of any person may be erased from the register who has procured or caused to be procured his registration by any false or fraudulent representations, and by this subsection a penalty is provided not only for the wilful commission of this offence, but also for the wilful attempt to commit it, and a further penalty of from \$20 to \$50 is imposed upon every person aiding and assisting him therein.

The sworn statement required in order to obtain a conviction does not differ from that required to procure the erasure of the name of the offender from the register, and in case the charge is for an attempt to commit an offence, all that would be necessary would be to prove an application to the Registrar for registration, and the making to him of such false statements, either verbally or by the production of documents containing them.

SECTION 47.

In order to prove an offence under this section it is not necessary to produce any proof that the person charged was not registered at the time that the alleged offence was committed, for by section 54 the burden of proof as to registration is upon the person so charged.

The offence under this section consists in practicing, professing to practice, or advertising to give advice in, Medicine, Surgery or Midwifery, provided always that any such act is done for "hire, gain, or hope of reward."

THE ONTARIO MEDICAL ACT

The person laying the charge must be prepared with evidence to prove against the person charged—

1. That he has attended persons and has treated them or prescribed for illness or has done some act which amounts to the practice of Medicine, Surgery or Midwifery, or—

2. That he has professed to practice, or has advertised to give advice in Medicine, Surgery or Midwifery by holding himself out to the public or to individuals as a Physician or Surgeon. This may be proved by persons aware of the fact to whom he has stated his willingness to act in such capacity or who have seen any advertisement, sign or notice either in a newspaper or publicly exposed about his premises, and in case an advertisement in a newspaper or by the distribution of cards is relied upon such advertisement should always be produced and identified.

The offence may sometimes be proved by a druggist who has prepared prescriptions, but in all cases the best evidence is that of the patient, where the charge is the actual practice of Medicine.

If sufficient evidence is given to cover one or both of the points above referred to, the proof of the charge will be completed by proving that what was done was for "hire, gain or hope of reward". Upon this point proof should be offered that he has taken fees or has been paid for medicine, services rendered, or that he has stipulated for payment or made some bargain for remuneration either in cash or otherwise.

SECTIONS 48 AND 49.

Section 48 deals with the offence of falsely pretending to be a Physician and the assumption of any title, addition or description to which the person charged is not legally entitled. Section 49 imposes a heavier penalty for the use of a title implying, or calculated to lead people to infer, that he is registered or that he is a Physician and Surgeon recognized by law. Proof should be given of the use of any such title in the same way as above mentioned for professing or advertising to give advice.
